

***Yvonne Stevens*** is an Adjunct Professor of Law at Arizona State University's Sandra Day O'Connor College of Law. Yvonne received her LL.M. in Biotechnology and Genomics from the Sandra Day O'Connor College of Law in May 2013. She holds an LL.B. from Dalhousie University's Schulich School of Law (Halifax, Nova Scotia). Previously, Yvonne was an associate at Stikeman Elliott's Vancouver, B.C. office where she practiced corporate law.

As a Center Research Fellow (Sandra Day O'Connor College of Law, Center for Law, Science & Innovation) Yvonne's interests include genetics, biotechnology, nanotechnology, personalized medicine & healthcare, intellectual property and information technology. Yvonne has co-authored and presented in the area of emerging technologies with Center Faculty Director Gary Marchant and co-leads the 2013-14 personalized medicine student research group. In addition, Yvonne is currently assisting the Center with its social media outreach.
