

Dr. Adam M. Finkel is currently Executive Director of the Penn Program on Regulation at the University of Pennsylvania, where he is also a Senior Fellow at the Penn Law School, and is Professor of Environmental and Occupational Health at the Rutgers University School of Public Health. From 2004 to 2007, he was a Visiting Professor of Public and International Affairs at the Woodrow Wilson School at Princeton University. From 2000 to 2003, Dr. Finkel was Regional Administrator for the U.S. Occupational Safety and Health Administration (OSHA) in Denver, Colorado, responsible for regulatory enforcement, compliance assistance, and outreach activities in the six-state Rocky Mountain region (Region VIII). From 1995 to 2000, he was Director of Health Standards Programs at OSHA headquarters, and was responsible for promulgating and evaluating regulations to protect the nation's workers from chemical, radiological, and biological hazards.

Dr. Finkel holds an Sc.D. in environmental health sciences from the Harvard School of Public Health, a master's degree in public policy from Harvard's John F. Kennedy School of Government, an A.B. in biology from Harvard College, and is a Certified Industrial Hygienist. Dr. Finkel has pioneered methodological improvements in human health risk assessment and cost-benefit analysis for the past 25 years, primarily in the areas of quantitative uncertainty analysis, accounting for interindividual variability in susceptibility, and designing regulatory processes to maximize stakeholder input and shed light on economic impacts. He is one of three scholars who served on both the "Blue Book" (1994) and "Silver Book" (2009) committees of the National Academy of Sciences convened to evaluate EPA's risk assessment methods. He is co-author of four books, including the 2014 volume **Does Regulation Kill Jobs?** (Univ. of Pennsylvania Press). Dr. Finkel served as President of the Risk Assessment and Policy Association from 1999 to 2001, and received the Chauncey Starr Award from the Society for Risk Analysis (outstanding contributions to the field by an analyst under 40). In 2006, he received the David P. Rall Award for Advocacy in Public Health from the American Public Health Association, for "a career in advancing science in the service of public health protection." In 2013, he received the Alumni Leadership in Public Health Practice award from the Harvard School of Public Health. He lives in Pennington, New Jersey, with his wife (a clinical psychologist) and 14-year-old daughter; he is also a professional singer and choral conductor.
